Received 7 December 1998; accepted 3 February 2000

The author regrets that the above paper, contained errors in the calculations of the marginal effects. Using the notation of the paper the following expressions should replace Eqs. (1) and (2) in the paper:

\[
\frac{\partial \Phi_{W1L1}}{\partial a_k} = \Phi_{W1L1} \phi_{W1} \beta_{Wk} + \Phi_{W1L1} \phi_{L1} \beta_{Lk} \tag{1}
\]

and

\[
\frac{\partial \Phi_{W1L0}}{\partial a_k} = \Phi_{W1L0} \phi_{W1} \beta_{Wk} + \Phi_{W1L0} \phi_{L0} (\beta_{Lk}) \tag{2}
\]

Consequently, the marginal effect for \( \Phi_{W1} \) is given by

\[
\frac{\partial \Phi_{W1}}{\partial a_k} = \frac{\partial \Phi_{W1L1}}{\partial a_k} \frac{\partial \Phi_{W1L0}}{\partial a_k} + \Phi_{W1L1} \phi_{L1} \beta_{Lk} + \Phi_{W1L0} \phi_{W1} \beta_{Wk} + \Phi_{W1L0} \phi_{L0} (\beta_{Lk})
\]

\[
= \Phi_{W1} \phi_{Wk} + \Phi_{W1L1} \phi_{L1} \beta_{Lk} - \Phi_{W1L0} \phi_{W1} \beta_{Wk} - \Phi_{W1L0} \phi_{L0} \beta_{Lk}
\]

The latter expression reduces to \( \phi_{W1} \beta_{Wk} \) only when \( \rho = 0 \).

These changes affect the description of component effects in Table 2. They should read (row number): (7) \( \Phi_{W1L1} \phi_{L1} \), (8) \( \Phi_{W1L1} \phi_{L1} \beta_{Lk} \), (9) Sum of rows 6 and 8, (13) \( \Phi_{W1L0} \phi_{L0} \), (14) \( \Phi_{W1L0} \phi_{L0} \beta_{Lk} \), (15) Sum of rows 12 and 14 (17) Sum of rows 10 and 16.
