Subject Index Volumes 1–21

Abatement
Optimal acid rain abatement policy for Europe: an analysis for the year 2000
  J.P. Hutton and G.E. Halkos
  17 (1995) 259

Absorption
Conventional and solar cooling systems for Kuwait: an economic analysis
  S. Hammoudeh, S. Ayyash and R.K. Suri
  6 (1984) 259

Access
Open access v. common carriage in electricity supply
  G. Brunekreeft
  19 (1997) 225

Accounting
Accounting for changes in Australian carbon dioxide emissions
  M.S. Common and U. Salma
  14 (1992) 217

Acid rain
Optimal acid rain abatement policy for Europe: an analysis for the year 2000
  J.P. Hutton and G.E. Halkos
  17 (1995) 259

Acid rain program
The US SO₂ auction: analysis and generalization
  G.T. Svendsen and J.L. Christensen
  21 (1999) 403

Ad hoc behaviour
Behaviour of non-renewable natural resource firms under uncertainty: optimizing or ad hoc
  M.J. Mueller
  16 (1994) 9

Adjusted demand
The Brazilian National Alcohol Programme: an economic reappraisal and adjustments
  R. Serôa da Motta and L. da Rocha Ferreira
  10 (1988) 229

Adjustment
The effect of oil price increases on four oil-poor developing countries: a comparative analysis
  H. Dick, S. Gupta, D. Vincent and H. Voigt
  6 (1984) 59

0140-9883/00/$ – see front matter © 2000 Elsevier Science B.V. All rights reserved.
PII: S0140-9883(00)00046-3
Adjustment costs
Symmetric or asymmetric price adjustments in the oil market: an empirical analysis of the relations between international and domestic prices in the Federal Republic of Germany, 1972–89
G. Kirchgaesser and K. Kuebler

AES
Assessing a disaggregated energy input: using confidence intervals around translog elasticity estimates
J.J. Hisnanick and B.L. Kyer

Aggregate capital intensity
An exploratory stochastic framework to analyse the relationship between macro oil price shocks and economic development
U.A. Kazi

Aggregate energy demand
The reliability of aggregate energy demand functions: an application of statistical specification error tests
H. Welsch
Accounting for technical progress in aggregate energy demand
C.T. Jones

Aggregate productivity
Impact of higher energy prices on wage rates, return to capital, energy intensity and productivity: a regional profit specification
D.C. Mountain

Aggregation
Defining ‘total energy use’ in economic studies: does the aggregation approach matter?
J. Zarnikau

Agriculture
The demand for electrical energy by agriculture in the USA
N.D. Uri
Natural gas demand by agriculture in the USA
N.D. Uri
Impacts of technological change on factor substitution between energy and other inputs within US agriculture, 1950–79
D.L. Debertin, A. Pagoulatos and A. Aoun
Energy-price impacts modelling in the agriculture sector
D.D. Tewari
The impact of measurement error in the data on estimates of the agricultural demand for electricity in the USA
N.D. Uri
Changing crude oil price effects on US agricultural employment
N.D. Uri
Conservation tillage and the use of energy and other inputs in US agriculture
N.D. Uri
Air pollution
A cost comparison of alternative policies for sulphur dioxide control: the case of the British power plant sector
H. Welsch 10 (1988) 287
Input–output simulations of energy, environment, economy interactions in the UK
Weather-induced changes in the tradeoff between SO₂ and NO₃ at large power plants
J.E. Leightner 21 (1999) 239
Estimation of the marginal abatement costs of airborne pollutants in Korea’s power generation sector
O.S. Kwon and W.-C. Yun 21 (1999) 545

Alberta
The impact of energy prices on Alberta’s economic outlook
J. Worsick and A. Naini 11 (1989) 46

Algeria
The impact of oil-export dependency on a developing country: the case of Algeria

Allen–Bowley forms
Longitudinal working models: estimates of household energy consumption in Australia
D. Ironmonger, I. Manning and T.V. Hoa 6 (1984) 41

Ambiguity
Greenhouse gas abatement under ambiguity
H. Welsch 17 (1995) 91

Analysis
Analysis of the factors influencing energy consumption in industry: a revised method

Analytical and numerical analyses
Short-term decisions under long-term uncertainty

Appliance ownership
Household ownership of electric room air conditioners
I. Matsukawa and N. Ito 20 (1998) 375

Asian countries
A statistical analysis of energy coefficients
B.W. Ang 13 (1991) 93

Asymmetric adjustment
Rockets and feathers: the asymmetric speed of adjustment of UK retail gasoline prices to cost changes
R.W. Bacon 13 (1991) 211
The imperfect price reversibility of non-transport oil demand in the OECD
J. Dargay and D. Gately 17 (1995) 59
Retail price asymmetries in local gasoline markets
Petrol price asymmetries revisited

Asymptotic stability
The price of energy and factor substitution in the US economy
J.V. Greenman and L.P. Drollas 9 (1987) 159

Auctions
On the economics of PURPA auctions
F. Bolle 13 (1991) 74

Australia

Some general equilibrium effects of declining crude oil production in Australia
L. Hogan and B. Naughten 12 (1990) 242
Economies of scale and factor substitution in electricity supply industry: a case study of South Australia
A.A. Rushdi 13 (1991) 219
Labour productivity and energy intensity in Australia 1974–87: an input–output analysis
J.M. Gowdy 14 (1992) 43
Accounting for changes in Australian carbon dioxide emissions
M.S. Common and U. Salma 14 (1992) 217
Productivity changes in the Gas and Fuel Corporation of Victoria
A. Rushdi 16 (1994) 36
Road transport energy demand in Australia: a cointegration approach
R. Samimi 17 (1995) 329

Australian liquid fuels taxation

An Australian fuel substitution tax model: ORANI-LFT
V.B. Hall, T.P. Truong and V.A. Nguyen 12 (1990) 255

Automobile fuel economy

Watching the fuel gauge: an international model of automobile fuel economy
M. Espey 18 (1996) 93
Fuel economy standards in a model of automobile quality
C. Plourde and V. Bardis 21 (1999) 309

Automobile taxation

Watching the fuel gauge: an international model of automobile fuel economy
M. Espey 18 (1996) 93

Automotive technology

The market share of diesel cars in the USA, 1979–83
D.L. Greene 8 (1986) 13

Clean up
Pigouvian penalty for oil spills
R.E. Kohn

Climate change
The relation between marginal product and price in US energy markets: implications for climate change policy
R.K. Kaufmann

Greenhouse gas abatement under ambiguity
H. Welsch

Climate modelling and policy strategies: the role of technical change and uncertainty
C. Carraro and J.C. Hourcade

Decision making under uncertainty and inertia constraints: sectoral implications of the when flexibility
F. Lecocq, J.-C. Hourcade and M.H. Duong

Quasi-option value and climate policy choices
M.H. Duong

Weather-induced changes in the tradeoff between SO$_2$ and N$_x$ at large power plants
J.E. Leightner

Climate policy
Indices for comparing greenhouse gas emissions: integrating science and economics
M. Kandlikar

Sensitivity of climate change mitigation estimates to assumptions about technical change
H. Dowlatabadi

CO$_2$ – see Carbon dioxide emissions

CO$_2$ tax – see Carbon tax

Coal
Energy economics – a random walk in history
G.F. Ray

EEC energy policy and the UK: the Birmingham energy model
J. Tzoannos, K.G. Vaidya and P.G. Soldatos

Spatial equilibrium in the US coal industry
T.C. Campbell, M.J. Hwang and F. Shahrokh

Efficiency aspects of electric utility coal operations
J.J. Gonzales

An evaluation of the competitiveness of the US coal market
A.L. Soyster, R.L. Gordon, E.E. Enscore and Y. We

Monopsony and federal coal leasing – a bargaining approach
D.B. Pariser and N.M. Khilji

Modelling and forecasting the demand for coal in China
H.L. Chan and S.K. Lee

Coal subsidization and nuclear phase-out in a general equilibrium model for Germany
H. Welsch

Non-competitive market behaviour in the international coking coal market
P. Graham, S. Thorpe and L. Hogan
Coal demand
An econometric simulation model of the US market for steam coal
W.C. Labys, S. Paik and A.M. Liebenthal
1 (1979) 19

Coal liquefaction
Sequential development of correlated projects: an application to coal liquefaction
N.T. Gallini
5 (1983) 37

Coal mining employment
Oil price shocks and employment: the case of Ohio coal mining
J.H. Hoag and M. Wheeler
18 (1996) 211

Coal prices
An econometric simulation model of the US market for steam coal
W.C. Labys, S. Paik and A.M. Liebenthal
1 (1979) 19

Coal slurry
Economics of coal transport by slurry pipeline versus unit train: a case study
J.J. Kania
6 (1984) 131

Coal supply
An econometric simulation model of the US market for steam coal
W.C. Labys, S. Paik and A.M. Liebenthal
1 (1979) 19
A quadratic programming model of the Appalachian steam coal market
W.C. Labys and C.W. Yang
2 (1980) 86

Cogeneration
District heating for the city of Ghent: results of a project appraisal study
A. Verbruggen and P. van Speybroeck
4 (1982) 111
Government policy and industrial investment in cogeneration in the USA
G. Anandalingam
7 (1985) 117
Nuclear power and coal-fired CHP
P.E. Grohnheit and P. Laut
9 (1987) 82
Impact of tax reform on renewable energy and cogeneration projects
E. Kahn and C.A. Goldman
9 (1987) 215

Cointegration
Short- and long-run elasticities in energy demand: a cointegration approach
J. Bentzen and T. Engsted
15 (1993) 9
Long-term relationships of major macro-variables in a resource-related economic model of Australia: a cointegration analysis
C. Harvie and V.H. Tran

Electricity demand
The demand for electrical energy by agriculture in the USA
N.D. Uri

The economics of load management by ripple control
J. Zahave and D. Feiler

Estimating the price elasticity of US electricity demand
V.K. Smith

An econometric analysis of peak electricity demand in the short run
R.R. Betancourt
An engineering–economic approach to estimating the price elasticity of residential electricity demand 8 (1986) 118
E. Kahn, J. Sathaye and D. Robbins

The behaviour of publicly owned utilities in wholesale electricity markets: the case of the Pacific Northwest 9 (1987) 241
L.L. Peters and K.P. Seiden

Structural changes in residential electricity demand 10 (1988) 213
W.S. Chern and H.E. Bouis

G.S. Donatos and G.J. Mergos

Sources of change in industrial electricity use in the Taiwan economy, 1976–86 16 (1994) 115
C.-Y. Chen and R.-H. Wu

The impact of measurement error in the data on estimates of the agricultural demand for electricity in the USA 16 (1994) 121
N.D. Uri

Electricity demand by time of use: an application of the household AIDS model 17 (1995) 197
M. Filippini

Response bias in a conjoint analysis of power outages 20 (1998) 135
M. Beenstock, E. Goldin and Y. Haitovsky

A. Henley and J. Peirson

Electricity distribution

T.G. Weyman-Jones

Efficiency and ownership in electricity distribution: a non-parametric model of the Turkish experience 18 (1996) 1
N. Bagdadioglu, C.M. Waddams Price and T.G. Weyman-Jones

Electricity generation

The role of energy limited hydro equipment in an optimal plant mix 6 (1984) 139
J.-T. Bernard and J. Chatel

The rise and fall of oil generation in the USA: a study in institutional adaptability 7 (1985) 66
R.L. Gordon

Fuel demand in electricity generation: a case study of the Republic of Korea 12 (1990) 137
C.-S. Suh

Energy conservation in electricity generation: a case study of the electricity and water industry in Kuwait 18 (1996) 69
N.A. Burney and F.T. Al-Matrouk

Weather-induced changes in the tradeoff between SO2 and N2 at large power plants 21 (1999) 239
J.E. Leightner

Electricity load

Electricity load and temperature: issues in dynamic specification 16 (1994) 235
J. Peirson and A. Henley

Electricity pricing

Inverted block or lifeline rates and micro-efficiency in the consumption of electricity 3 (1981) 113
J.L. Neufeld and J.M. Watts

### Multilevel optimization

The role of renewable energy in the energy system: an issue in the philosophy of renewal of natural resources
S.M.N. Islam

### Multiplier

On the applicability of input–output analysis to energy issues
R.-H. Wu and C.-Y. Chen

### Natural gas

- **Natural gas price elasticities: variations by region and by sector in the USA**
  B.-C. Liu
  5 (1983) 195
- **Power system economics: the value of natural gas in electricity generation**
  M.G. Webb and N.M. Pinto
  6 (1984) 245
- **The GAO natural gas supply model**
  C.E. Moody, P.L. Valentine and W.J. Kruvant
  7 (1985) 49
- **Economic forces in the European gas market – a 1985 prospective**
  J. Boucher and Y. Smeers
  9 (1987) 2
- **A process for decision-making on natural gas: fiscal competitiveness in reservoir development**
  Paolo Fobelli
  9 (1987) 265
- **Natural gas demand by agriculture in the USA**
  N.D. Uri
  11 (1989) 137
- **A dynamic model of natural gas deregulation**
  M.K. Yücel
  12 (1990) 35
- **Regulator preferences and utility prices: evidence from natural gas distribution utilities**
  C.C. Klein and G.H. Sweeney
  21 (1999) 1
- **A hybrid economic-engineering model for natural gas production**
  J.M. Chermak, J. Crafton, S.M. Norquist and R.H. Patrick
  21 (1999) 67
- **Convergence to the long-run equilibrium: the case of natural gas markets**
  D. Lien and T.H. Root
  21 (1999) 95

### Natural gas distribution

- **Efficient strategies for natural gas expansion under uncertainty: the case of Sweden**
  G. Bergendahl
  10 (1988) 100
- **Capacity planning for a natural gas pipeline in Sweden**
  F. Yi
  12 (1990) 211

### Natural gas industry

- **International comparisons of productivity and its determinants in the natural gas industry**
  T.-Y. Kim, J.-D. Lee, Y.H. Park and B. Kim
  21 (1999) 273

### Natural gas market

- **A sensitivity analysis of the linear complementarity programming model: Appalachian steam coal and the natural gas market**
  C.-w. Yang and W.C. Labys
  7 (1985) 145

### Natural resources

- **Long-term macroeconomic estimate of energy consumption**
  O.A. Eisмонт
  14 (1992) 271
Behaviour of non-renewable natural resource firms under uncertainty: optimizing or ad hoc
M.J. Mueller
16 (1994) 9

Negotiation
Monopsony and federal coal leasing – a bargaining approach
D.B. Pariser and N.M. Khilji
11 (1989) 169

Net benefit function
Net benefit functions, discounting and the optimal time horizon for extracting
non-replenishable resources
K. Willett
7 (1985) 163

Netback value
Assessing demand when introducing a new fuel: natural gas on Java
W.J.H. van Groenendaal
17 (1995) 147

New Zealand electricity distribution
Electricity distribution as an unsustainable natural monopoly: a potential outcome of New
Zealand’s regulatory regime
C. Gunn
21 (1999) 385

Non-energy petroleum products
Demand for non-energy petroleum products: the case of Québec
D. Bélanger, J.-T. Bernard and R. Dubois
12 (1990) 177

Non-linear pricing
Dual v. uniform prices – an application
P.R. Scholte
12 (1990) 18
Non-linear prices and energy demand
A. Markandya and M. Pemberton
12 (1990) 27

Non-parametric methods
Effect of the 1973 oil price embargo: a non-parametric analysis
R.K. Goel and M.J. Morey
15 (1993) 39
Energy demand impact of incentive programmes: a non-parametric analysis for the
Canadian Oil Substitution Program
G. Lafrance and D. Perron
15 (1993) 226

Non-renewable resource use
Returns to scale, adjustment costs and the optimal investment of the mining firm
S.J. Rubio
14 (1992) 163

North Sea
North Sea oil taxation in Norway
A.G. Kemp and D. Crichton
1 (1979) 33

North Sea oil
Optimal policies for investment and depletion in an oil-rich industrialized economy
H. Motamen
4 (1982) 7

14 (1992) 3

Quasi-option value and climate policy choices
M.H. Duong
20 (1998) 599

Optional tariffs

Optimal tariff design under consumer self-selection
M. Räisänen, J. Ruusunen and R.P. Hamalainen
19 (1997) 151

ORANI-LFT general equilibrium model

An Australian fuel substitution tax model: ORANI-LFT
V.B. Hall, T.P. Truong and V.A. Nguyen
12 (1990) 255

Ordered logit

Ordered logit model for residential electricity demand in Korea
T.Y. Jung
15 (1993) 205

Outage costs

Optimal electricity supply: reliability, pricing and system planning
M. Munasinghe
3 (1981) 140

The economic cost of power outages in the industrial sector of Pakistan
H.A. Pasha, A. Ghaus and S. Malik
11 (1989) 301

Outage costs in Chilean industry
P. Serra and G. Fierro
19 (1997) 417
Own-price elasticities

The demand for energy: evidence from a cross-country demand system

The demand for energy: cross-country evidence using the Florida model

Pacific Northwest

The behaviour of publicly owned utilities in wholesale electricity markets: the case of the Pacific Northwest

Pan-Pacific

Production and high energy prices: a case of some Pan-Pacific countries
R.K. Koshal, M. Koshal, K.L. Luthra and J.D. Lindley 12 (1990) 197

Parameter stability

Price sensitivity of residential energy consumption in Norway
R. Nesbakken 21 (1999) 493

Partial equilibrium model

Gas trade in the European Community during the 1970s: a model analysis
J. Boucher and Y. Smeeers 7 (1985) 102

Partial least squares

Household production and the short- and long-run demand for electricity
G. Flaig 12 (1990) 116

Path-dependency

Sensitivity of climate change mitigation estimates to assumptions about technical change

Peak demand

Television peaks in electricity demand
D.W. Bunn and J.P. Seigal 5 (1983) 31

A double horizon peak demand forecast model
V. Assimakopoulos and J. Psarras 14 (1992) 103

Peak load pricing

Causal responsibility and peak load pricing
S.V. Berg 4 (1982) 246

Peak-pricing and self-rationing of gas
C.M. Cannon 9 (1987) 99

Penetration levels

Domestic appliance energy usage in Western Australia
P. Goldschmidt 10 (1988) 155
Persistence profiles
Convergence to the long-run equilibrium: the case of natural gas markets 21 (1999) 95

Energy prices and the aggregate production function

Rate sensitivity
Rate sensitivity and the optimal choice of production capacity of petroleum reservoirs
A.N. Nystad 9 (1987) 37

Rate-structure debate
Time-of-use rates v. Hopkinson tariffs redux: an analysis of the choice of rate structures in a regulated electricity distribution company
Ratemaking
Weather normalization of electricity sales to the school sector: potential model misspecification  
K. Monts, M. Blissett and R. Wilson  
11 (1989) 127

Rating systems
Energy labels and economic search: an example from the residential real estate market  
R.W. Gilmer  
11 (1989) 213

Rational energy use
Impacts of the structures of electricity and gas tariffs on the rational use of energy  
M. Brand  
12 (1990) 103

Real incomes
Real incomes and the consumption of woodfuels in Ghana: an analysis of recent trends  
E.M. Abakah  
12 (1990) 227

Recessions
Identifying no growth years in the US economy: using increases in crude oil prices  
E.F. Renshaw  
14 (1992) 132

Regional economic impacts
The impact of a carbon tax on the Susquehanna River Basin economy  
R. Kamat, A. Rose and D. Abler  
21 (1999) 363

Regional fuel demand
The economics of fuel choice at US electric utilities  
A.E. Bopp and D. Costello  
12 (1990) 82

Regression analysis
Rural household energy demand modelling: a case study of Nepal  
K. Rijal, N.K. Bansal and P.D. Grover  
12 (1990) 279
Trading volume, maturity and natural gas futures price volatility  
J.H. Herbert  
17 (1995) 293

Regulated distribution companies
Time-of-use rates v. Hopkinson tariffs redux: an analysis of the choice of rate structures in a regulated electricity distribution company  
D. Seeto, C.K. Woo and I. Horowitz  
19 (1997) 169

Regulation
Price controls, price dispersion and the supply of refined petroleum products  
V.B. Agarwal and R.T. Deacon  
7 (1985) 210
Intertemporal consumer surplus in lagged-adjustment demand models: an application to natural gas pricing  
M.G. Baumann and J.P. Kalt  
8 (1986) 2
Separability, functional form and regulatory policy in models of interfuel substitution  
T.J. Considine  
11 (1989) 82
Election returns as a signal of changing regulatory climate 13 (1991) 48
M.R. Butler and E.M. McNertney
Regulatory selection and endogenous systematic risk 13 (1991) 86
M. Devaney
Price, quality and regulation: an analysis of price capping and the reliability of electricity supply 16 (1994) 175
R. Fraser
Regulatory effects on electricity prices in Hong Kong 21 (1999) 528
P.-L. Lam

Regulator selection
H.L. Brewer and P.C. Mann

Reliability
Optimal electricity supply: reliability, pricing and system planning 3 (1981) 140
M. Munasinghe
Optimal electricity supply reliability using customer shortage costs 5 (1983) 129
A.P. Sanghvi
The investment criteria of the Swedish electricity industry 7 (1985) 13
R. Andersson and L. Taylor
The social cost of unsupplied electricity: a critical review 8 (1986) 139
R. Andersson and L. Taylor
Generators and the cost of electricity outages 13 (1991) 283
M. Beenstock
An end-use approach to reliability investment analysis 14 (1992) 248
C.J. Andrews
Reliability, risk aversion and the positive theory of public enterprise 15 (1993) 190
R. Fraser
Price, quality and regulation: an analysis of price capping and the reliability of electricity supply 16 (1994) 175
R. Fraser

Renewable energy
An econometric analysis of residential expenditures on energy conservation and renewable energy sources 15 (1993) 232
J.E. Long
The role of renewable energy in the energy system: an issue in the philosophy of renewal of natural resources 17 (1995) 117
S.M.N. Islam
K.N. Rask

Reserves
S.P. Mauch and P. Marti
USA oil/gas production cost: recent changes 13 (1991) 235
M.A. Adelman
Residential energy demand

Residential energy demand: an integrated two-levels approach

Auxiliary heating in the residential sector
J.M. Reilly and S.A. Shankle 10 (1988) 29

Structural changes in residential energy demand

Rejoinder: Weather, the estimation of residential energy demand relationships: a comment
J.H. Herbert 10 (1988) 324

Rejoinder: Weather, the estimation of residential energy demand relationships and the reporting of data: a reply
A.A. Rushdi 10 (1988) 325

Residential energy demand modelling in developing regions: the use of multivariate statistical techniques
V. Assimakopoulos 14 (1992) 57

Residential energy demand in OECD-countries and the role of irreversible efficiency improvements

Residential sector

Residential demand for electricity
J. Wills 3 (1981) 249

A model of residential demand for electricity using a national household sample
C. Garbacz 5 (1983) 124

A model for planning energy requirements for residential heating
G. Saros 6 (1984) 202

Estimating energy savings due to conservation programmes: the BPA residential weatherization pilot programme
E. Hirst and R. Goeltz 7 (1985) 20

Residential demand for fuelwood
C. Garbacz 7 (1985) 191

Interfuel substitution in the residential sector of South Australia
A.A. Rushdi 8 (1986) 177

Appliance-specific electricity consumption in Slovene households
T. Stanovnik 9 (1987) 31

Energy tax credits and housing improvement
M.J. Walsh 11 (1989) 275

An energy consumption forecast for the Soviet residential and commercial sector
O.A. Nekrasova 13 (1991) 10

Short- and long-run elasticities in US residential electricity demand: a co-integration approach

Residual fuel oil

A demand-determined model of the residual fuel oil market
D.J. Green 10 (1988) 125

Resource conservation

Comparative energy and environmental policy for the residential sector: applying Dutch standards to the UK housing stock
**Resource depletion**

The comparative metastatics of the theory of the mine  
P.J. Crabbe  
4 (1982) 240

Resource extraction of imperfect substitutes  
F. Wirl  
10 (1988) 242

**Resource-related economic model**

Long-term relationships of major macro-variables in a resource-related economic model of Australia: a cointegration analysis  
C. Harvie and V.H. Tran  
15 (1993) 257

**Resource v. non-resource based economy**

The impact of energy prices on Alberta's economic outlook  
J. Worsick and A. Naini  
11 (1989) 46

**Response surfaces**

OECD oil demand: estimated response surfaces for nine world oil models  
H.G. Huntington  
15 (1993) 49

**Return**

Factors that influence public utility performance  
H.D. Platt and J.B. Welch  
11 (1989) 219

Regulatory selection and endogenous systematic risk  
M. Devaney  
13 (1991) 86

**Ridge regression**

Residential demand for electricity: the case of Greece  
G.S. Donatos and G.J. Mergos  
13 (1991) 41

**Risk**

Factors that influence public utility performance  
H.D. Platt and J.B. Welch  
11 (1989) 219

Regulatory selection and endogenous systematic risk  
M. Devaney  
13 (1991) 86

Financing waste to energy plants  
A. Woodward  
14 (1992) 233

Optimal participation rate under risk  
M. Breton  
15 (1993) 101

**Risk aversion**

Reliability, risk aversion and the positive theory of public enterprise  
R. Fraser  
15 (1993) 190

**Risk management**

Energy security: coping with multiple supply risks  
P. Zweifel and S. Bonomo  
17 (1995) 179

Risk management in the oil industry: can information on long-run equilibrium prices be utilized?  
O. Gjølberg and T. Johnsen  
21 (1999) 517

USSR
An energy consumption forecast for the Soviet residential and commercial sector
O.A. Nekrasova
(1991) 10

Utility
Optimal participation rate under risk
M. Breton
(1993) 101

Utility fuel demand
A regional linear logit fuel demand model for electric utilities
C.E. Moody
(1996) 295

Utility maximization
Income and the recycling effort: a maximization problem
C. Saltzman, V.G. Duggal and M.L. Williams
(1993) 33

Utility modelling
The economics of fuel choice at US electric utilities
A.E. Bopp and D. Costello
(1990) 82

Utility planning
Least cost selection of energy conservation measures for regulated gas utilities
V.A. Greenberg and S.L. Harshbarger
(1993) 166

Validation criteria
Measuring the validity and performance of energy models
W.C. Labys
(1982) 159
### Valuation

An option pricing approach to evaluating petroleum projects  
S. Ekern  

**VARIATIONAL INEQUALITIES**

General multi-product, multi-pollutant market pollution permit model: a variational inequality approach  
A. Nagurney, K. Kanwal, Dhanda and J.K. Stranlund  

**VAT**

The impact of VAT introduction on UK residential energy demand: an investigation using the cointegration approach  
R. Fouquet  

**VECTOR AUTOREGRESSIVE MODEL**

Oil price shocks and employment: the case of Ohio coal mining  
J.H. Hoag and M. Wheeler  

**VERTICAL DISENTERTURE**

Vertical divestiture of the US oil industry and US–OPEC relations  
H. Steele and G. Daly  

**VOLATILITY**

Trading volume, maturity and natural gas futures price volatility  
J.H. Herbert  

Oil price shocks and stock market activity  
P. Sadorsky  

**WASTE-TO-ENERGY**

Financing waste to energy plants  
A. Woodward  

**WEATHER**

Rejoinder: Weather, the estimation of residential energy demand relationships: a comment  
J.H. Herbert  

Rejoinder: Weather, the estimation of residential energy demand relationships and the reporting of data: a reply  
A.A. Rushdi  

Weather normalization of electricity sales to the school sector: potential model misspecification  
K. Monts, M. Blissett and R. Wilson  

An iterative approach for weather-correcting energy consumption data  
M.A.T. Elkhatif  

**WELFARE**

Intertemporal consumer surplus in lagged-adjustment demand models: an application to natural gas pricing  
M.G. Baumann and J.P. Kalt
A model of individual household temperature demand and energy-related welfare changes
using satiety
J.E. Kushman and J.G. Anderson 8 (1986) 147

Measuring the consumer welfare effects of carbon penalties: theory and applications to
household energy demand
J.C. Dumagan and T.D. Mount 14 (1992) 82

A comparison of cost-based pricing rules for natural gas distribution utilities
C.C. Klein 15 (1993) 176

Regulator preferences and utility prices: evidence from natural gas distribution utilities
C.C. Klein and G.H. Sweeney 21 (1999) 1

Western Australia
Energy forecasts for Western Australia 1992–2010

Windpower
The stochastic economics of windpower
M. Beenstock 17 (1995) 27

Wood
Energy economics – a random walk in history
G.F. Ray 1 (1979) 139

The input–output structure of energy and resources in forestry and associated industries
M.R. Bhagavan and A.M. Din 2 (1980) 243

Real incomes and the consumption of woodfuels in Ghana: an analysis of recent trends
E.M. Abakah 12 (1990) 227

World energy models
World energy models – a survey and critique
A.M. Ulph 2 (1980) 46

The limitations of energy policy models
S. Koreisha 2 (1980) 96

Rejoinder: World energy models – survey and critique: a comment
J. Rowse 2 (1980) 249

Rejoinder: World energy models – survey and critique: reply
A. Ulph 2 (1980) 249

A comparative analysis of global energy models

Changes in energy consumption and energy intensity: a complete decomposition model

Yugoslavia
Appliance-specific electricity consumption in Slovene households
T. Stanovnik 9 (1987) 31
