The Handbooks in Finance are intended to be a definitive source for comprehensive
and accessible information in the field of finance. Each individual volume in the
series should present an accurate self-contained survey of a sub-field of finance,
suitable for use by finance and economics professors and lecturers, professional
researchers, graduate students and as a teaching supplement. The goal is to have a
broad group of outstanding volumes in various areas of finance as shown by the list
of volumes under consideration.
