THE MINIMUM-NORM LEAST-SQUARES SOLUTION OF A LINEAR SYSTEM AND SYMMETRIC RANK-ONE UPDATES

XUZHOU CHEN† AND JUN JI‡

Abstract. In this paper, we study the Moore-Penrose inverse of a symmetric rank-one perturbed matrix from which a finite method is proposed for the minimum-norm least-squares solution to the system of linear equations $Ax = b$. This method is guaranteed to produce the required result.

Key words. Finite method, Linear system, Moore-Penrose inverse, Symmetric rank-one update.
