THEORY AND APPLICATIONS OF CATEGORIES

Volume 21, 2008-2009

The Tholen Festscrift:
A special volume dedicated to
Walter Tholen
on the occasion of his 60'th birthday.

Foreword
The guest editors 1

A convenient category for directed homotopy
L. Fajstrup and J. Rosicky 7

Limit preserving full embeddings
V. Trnkova and J. Sichler 21

Protolocalisations of exact Mal’cev categories
Francis Borceux, Marino Gran, Sandra Mantovani 37

Doubles for monoidal categories
Craig Pastro and Ross Street 61

Completions in biaffine sets
Elisabetta Felaco and Eraldo Giuli 76

The Editors of TAC wish to thank Maria Manuel Clementino, George Janelidze, Jiri Rosicky and Robert Rosebrugh who acted as guest editors for this special volume.

© The Editors of Theory and Applications of Categories 2009. Permission to copy for private use granted.
Weakly Mal’cev categories
N. Martins-Ferreira

Extensions in the theory of lax algebras
Christoph Schubert and Gavin J. Seal

Approximate Mal’tsev operations
Dominique Bourn and Zurab Janelidze

Notes on effective descent and projectivity in quasivarieties of universal algebras
Ana Helena Roque

Descent for compact 0-dimensional spaces
George Janelidze and Manuela Sobral

Analytic functors and weak pullbacks
J. Adamek and J. Velebil

Relative injectivity as cocompleteness for a class of distributors
Maria Manuel Clementino and Dirk Hofmann
THEORY AND APPLICATIONS OF CATEGORIES (ISSN 1201-561X) will disseminate articles that significantly advance the study of categorical algebra or methods, or that make significant new contributions to mathematical science using categorical methods. The scope of the journal includes: all areas of pure category theory, including higher dimensional categories; applications of category theory to algebra, geometry and topology and other areas of mathematics; applications of category theory to computer science, physics and other mathematical sciences; contributions to scientific knowledge that make use of categorical methods.

Articles appearing in the journal have been carefully and critically refereed under the responsibility of members of the Editorial Board. Only papers judged to be both significant and excellent are accepted for publication.

Full text of the journal is freely available in .dvi, Postscript and PDF from the journal’s server at http://www.tac.mta.ca/tac/ and by ftp. It is archived electronically and in printed paper format.

SUBSCRIPTION INFORMATION. Individual subscribers receive by e-mail abstracts of articles by e-mail as they are published. To subscribe, send e-mail to tac@mta.ca including a full name and postal address. For institutional subscription, send enquiries to the Managing Editor.

INFORMATION FOR AUTHORS. The typesetting language of the journal is \TeX, and \LaTeX\ 2\epsilon is strongly encouraged. Articles should be submitted by e-mail directly to a Transmitting Editor. Please obtain detailed information on submission format and style files from http://www.tac.mta.ca/tac/.

Managing editor. Robert Rosebrugh, Mount Allison University: rrosebrugh@mta.ca

\LaTeX\nical editor. Michael Barr, McGill University: barr@math.mcgill.ca

Assistant \LaTeX\ editor. Gavin Seal, McGill University: gavin_seal@fastmail.fm

Transmitting editors.
